## **1 General information**

These financial statements cover the Janus Henderson Cash Fund - Institutional (the "Fund") as an individual entity.

The Responsible Entity of the Fund is Janus Henderson Investors (Australia) Funds Management Limited (ABN 43 164 177 244) (the "Responsible Entity"). The Responsible Entity's registered office is Level 36, Grosvenor Place, 225 George Street, Sydney NSW 2000.

The financial statements are presented in the Australian currency.

The Fund seeks to achieve a total return after fees that exceeds the total return of the Bloomberg AusBond Bank Bill Index over rolling annual periods.

The financial statements were authorised for issue by the directors of the Responsible Entity on 20 September 2023. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

## **2 Summary of significant accounting policies**

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated in the following text.

### **(a) Basis of preparation**

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001* in Australia. The Fund is a for-profit unit trust for the purpose of preparing the financial statements.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities except where otherwise stated.

The statement of financial position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and non-current. All balances are expected to be recovered or settled within 12 months, except for financial assets and liabilities at fair value through profit or loss and net assets attributable to unitholders. The amount expected to be recovered or settled within 12 months after the end of each reporting period in relation to these balances cannot be reliably determined.

#### *(i) Compliance with International Financial Reporting Standards ("IFRS")*

The financial statements of the Fund also comply with IFRS as issued by the International Accounting Standards Board.

#### *(ii) New and amended standards adopted by the Fund*

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the year beginning 1 July 2022 that have a material impact on the amounts recognised in the prior periods that will affect the current or future periods.

#### *(iii) New standards, amendments and interpretations not yet adopted*

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 July 2023, and have not been early adopted in preparing these financial statements. None of these are expected to have a material impact on the financial statements of the Fund for the year ended 30 June 2023.

### **(b) Financial assets and liabilities at fair value through profit or loss**

#### *(i) Classification*

##### *Assets*

The Fund classifies its investments based on its business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The Fund's portfolio of financial assets is managed and its performance is evaluated on a fair value basis in accordance with the Fund's documented investment strategy. The Fund uses fair value information to assess performance of the portfolio and to make decisions to rebalance the portfolio or to realise fair value gains or minimise losses through sales or other trading strategies. The Fund's policy is for the Responsible Entity to evaluate the information about these financial assets on a fair value basis together with other related financial information.

Equity securities and derivatives are measured at fair value through profit or loss.

For debt securities, the contractual cash flows are solely payments of principal and interest, however they are neither held for collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, the debt securities are measured at fair value through profit or loss.

## **2 Summary of significant accounting policies (continued)**

### **(b) Financial assets and liabilities at fair value through profit or loss (continued)**

#### *(ii) Recognition/derecognition*

The Fund recognises financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognises changes in fair value of financial assets or financial liabilities from this date.

Investments are derecognised when the right to receive cashflows from the investments have expired or have been transferred and the Fund has transferred substantially all of the risks and rewards of ownership.

#### *(iii) Measurement*

At initial recognition, the Fund measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the statement of comprehensive income.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the statement of comprehensive income within net gains/(losses) on financial instruments at fair value through profit or loss in the period in which they arise.

Further details on how the fair values of financial instruments are determined are disclosed in Note 4 to the financial statements.

### **(c) Net assets attributable to unitholders**

Units are redeemable at the unitholders' option, however applications and redemptions may be suspended by the Responsible Entity if it is in the best interests of the unitholders.

The units can be put back to the Fund at any time for cash based on the redemption price, which is equal to a proportionate share of the Fund's net asset value attributable to the unitholders.

The units are carried at the redemption amount that is payable at balance sheet date if the holder exercises the right to put the unit back to the Fund. This amount represents the expected cash flows on redemption of these units.

Units are classified as equity when they satisfy the following criteria under AASB 132 *Financial instruments: Presentation*:

- the puttable financial instrument entitles the holder to a pro-rata share of net assets in the event of the Fund's liquidation;
- the puttable financial instrument is in the class of instruments that is subordinate to all other classes of instruments and class features are identical;
- the puttable financial instrument does not include any contractual obligations to deliver cash or another financial asset, or to exchange financial instruments with another entity under potentially unfavourable conditions to the Fund, and it is not a contract settled in the Fund's own equity instruments; and
- the total expected cash flows attributable to the puttable financial instrument over the life are based substantially on the profit or loss.

### **(d) Cash and cash equivalents**

For the statement of cash flows presentation purposes, cash and cash equivalents include cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of three months or less from the date of acquisition that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

Payments and receipts relating to the purchase and sale of investment securities are classified as cash flows from operating activities, as movements in the fair value of these securities represent the Fund's main income generating activity.

### **(e) Investment income**

#### ***Interest Income***

Interest income from financial assets at amortised cost is recognised on a time-proportionate basis using the effective interest method and includes interest from cash and cash equivalents.

Interest from financial assets at fair value through profit or loss is determined based on the contractual coupon interest rate and includes interest from debt securities.

Other changes in fair value for such instruments are recorded in accordance with the policies described in Note 2(b) (iii) to the financial statements.

## 2 Summary of significant accounting policies (continued)

### (f) Expenses

All expenses are recognised in the statement of comprehensive income on an accruals basis.

### (g) Income tax

Under current legislation, the Fund is not subject to income tax provided they attribute the entirety of their taxable income to the unitholders.

### (h) Distributions

Distributions are payable as set out in the Fund's Product Disclosure Statement. Such distributions are determined by the Responsible Entity of the Fund. Distributable income includes capital gains arising from the disposal of financial assets and liabilities at fair value through profit or loss. Unrealised gains and losses on financial assets and liabilities at fair value through profit or loss that are recognised as income are transferred to net assets attributable to unitholders and are not assessable and distributable until realised. Capital losses are not distributed to unitholders but are retained to be offset against any realised capital gains.

### (i) Foreign currency translation

#### *i) Functional and presentation currency*

Items included in the Fund's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is the Australian dollar, which reflects the currency of the economy in which the Fund competes for capital and is regulated. The Australian dollar is also the Fund's presentation currency.

#### *ii) Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translations at period end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of comprehensive income.

The Fund does not isolate that portion of gains or losses on securities which is due to changes in foreign exchange rates from that which is due to changes in the market price of securities. Such fluctuations are included with the net gains or losses on financial instruments at fair value through profit or loss.

### (j) Receivables

Receivables include amounts where settlement has not yet occurred and are measured at their nominal amounts. Amounts are generally received within 30 days of being recorded as receivables. Given the short-term nature of most receivables, the recoverable amount approximates fair value.

### (k) Payables

Payables are recognised for amounts to be paid in the future for goods and services received, whether or not billed to the Fund, and are measured at amortised cost. Amounts are generally paid within 30 days of being recorded as payables. Given the short-term nature of most payables, the payable amount approximates fair value.

### (l) Applications and redemptions

Applications received for units in the Fund are recorded net of any entry fees payable prior to the issue of units in the Fund. Redemptions from the Fund are recorded gross of any exit fees payable after the cancellation of units redeemed. Investors can apply and redeem from the Fund on a daily basis.

Unit prices are determined by reference to the net assets per the Fund's Constitution divided by the number of units on issue at or immediately prior to the close of each business day.

### (m) Goods and services tax ("GST")

The Fund qualifies for Reduced Input Tax Credits ("RITC"); hence the management fee, has been recognised in profit or loss net of the amount of GST recoverable from the Australian Taxation Office ("ATO"). Accounts payable are inclusive of GST. The net amount of GST recoverable from the ATO is included in receivables in the statement of financial position. Cash flows relating to GST are included in the statement of cash flows on a gross basis.

## 2 Summary of significant accounting policies (continued)

### (n) Use of estimates

The Fund makes estimates and assumptions that affect the reported amounts of assets and liabilities. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

For the majority of the Fund's financial instruments, quoted market prices are readily available. However, certain financial instruments, for example over-the-counter derivatives or unquoted securities, are fair valued using valuation techniques. Where valuation techniques (for example, pricing models) are used to determine fair values, they are validated and periodically reviewed by experienced personnel of the Responsible Entity, independent of the area that created them.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require management to make estimates. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

For more information on how fair value is calculated please see Note 4 to the financial statements.

### (o) Rounding of amounts

The Fund is an entity of the kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191*, relating to the 'rounding off' amounts in the financial statements. Amounts in the financial statements have been rounded off to the nearest thousand dollars, unless otherwise indicated.

### (p) Operating segments

The registered scheme is outside the scope of AASB 8 *Operating Segments* as it does not satisfy the requirement, under AASB 8, of having debt or equity instruments traded in a public market, or file their financial statements with a securities commission or other regulatory organisation for the purpose of issuing any class of instruments in a public market.

## 3 Financial risk management

The Fund's activities expose it to a variety of financial risks: market risk (including price risk, currency risk, and interest rate risk), credit risk and liquidity risk.

The Fund's overall risk management program focuses on ensuring compliance with its governing documents and seeks to maximize the returns derived for the level of risk to which the Fund is exposed and seeks to minimise potential adverse effects of the Fund's financial performance.

The Responsible Entity via the Investment Manager assesses the risk profile before entering into economic hedge transactions. More details about risk management policies employed by the Fund to manage financial risks are discussed below.

### (a) Market risk

Market risk is the risk that the value of the Fund's investments or the benefits arising thereon will fluctuate because of changes in market prices. Market risk comprises three types of risk: price risk, foreign exchange risk and interest rate risk.

#### (i) Price risk

Price risk is the risk that a change in market price will affect the Fund's income or the fair value of its holding of financial instruments. The objective of price risk management is to manage price risk exposures within acceptable parameters while optimising the return.

Price risk is not considered to be significant to the Fund's investments at 30 June 2023 and 30 June 2022.

#### (ii) Foreign exchange risk

Foreign exchange risk arises as the value of monetary securities denominated in other currencies fluctuate due to changes in exchange rates. The Investment Manager monitors the exposure of all foreign currency denominated assets and liabilities.

As the Fund has no direct exposure to material monetary securities denominated in currencies other than the Australian dollar, foreign exchange sensitivity has not been presented.

#### (iii) Interest rate risk

The Fund's interest bearing financial assets expose it to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows.

The Responsible Entity establishes interest rate management strategies to manage the risk of the Fund. The Responsible Entity and the Investment Manager monitor the Fund's interest sensitivity position on a daily basis.

### 3 Financial risk management (continued)

#### (a) Market risk (continued)

##### (iii) Interest rate risk (continued)

The Fund has direct exposure to interest rate changes on the valuation of its interest bearing asset.

The table below summarises the Fund's exposure to interest rate risk.

#### (b) Summarised sensitivity analysis

The following table summarises the sensitivity of the Fund's operating profit and net assets attributable to unitholders to interest rate risk. The reasonably possible movements in the risk variables have been determined based on the Responsible Entity's best estimates, having regard to a number of factors, including historical correlation of the Fund's investments with the relevant benchmark and market volatility. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance and/or correlation between the performance of the economics, markets and securities in which the Fund invests. As a result, historical variations in the risk variables are not a definitive indicator of future variations in the risk variables.

The effect on the net assets attributable to unitholders and profit or loss due to a reasonably possible change in interest rates with all other variables held constant is indicated in the table below:

	Change in index		Impact on operating profit/net assets attributable to unitholders

### 3 Financial risk management (continued)

#### (c) Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund, resulting in a financial loss to the Fund.

The Fund is exposed to concentration risk when a number of financial instruments or contracts are entered into with the same counterparty, or where a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions.

Concentrations of credit risk are minimised primarily by ensuring that transactions are undertaken with a large number of counterparties (either directly or indirectly).

As at 30 June 2023 and 30 June 2022, there were no financial assets that are past due or impaired, or would otherwise be past due or impaired except for the terms having been renegotiated.

The maximum exposure to credit risk before any credit enhancements at the end of each reporting period is the carrying amount of the financial assets.

The credit quality of financial assets is managed by the Fund using external credit rating categories in accordance within the investment mandate of the Fund. The Fund's exposure to each grade is monitored on a daily basis. The review process allows the Responsible Entity to assess the potential loss as a result of risk and take corrective action. The table below show the credit quality of the Fund's debt securities.

Portfolio by rating category	As at			
	30 June 2023		30 June 2022	
Rating	%	\$'000	%	\$'000
AAA+ to AA-	61.03	211,875	96.14	249,892
A+ to A-	38.97	135,289	3.86	10,041
Total	100.00	347,164	100.00	259,933

#### (d) Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

These risks are controlled through the Fund's investments in financial instruments, which under normal market conditions are readily converted into cash. Term deposits are considered illiquid and consequently have a higher exit fee, if exited prior to their end date. In addition, the Fund maintains sufficient cash and cash equivalents to meet normal operating requirements.

The risk management guidelines adopted are designed to minimise liquidity and cash flow risk through:

- ensuring that there is no significant exposure to illiquid or thinly traded financial instruments; and
- ensuring that there is no concentration of liquidity risk to a particular counterparty or market.

The Investment Manager monitors the Fund's liquidity on a daily basis and any issues relating to funding constraints or overdrafts are reported to the Responsible Entity.

Financial liabilities of the Fund comprise of distributions payable, other payables and financial liabilities at fair value through profit or loss. Distributions payable are settled on payment date and other payables are typically settled within 30 days.

### 4 Fair value measurement

The Fund measures and recognises the following assets and liabilities at fair value on a recurring basis:

- Financial assets/liabilities at fair value through profit or loss (FVPL) (see Note 9).

The Fund has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 requires disclosure of fair value measurements by level of the following fair value hierarchy:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

Financial assets and liabilities at fair value through profit or loss are measured initially at fair value excluding any transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately. Subsequent to initial recognition, all instruments at fair value through profit or loss are measured at fair value with changes in fair value recognised in the Statement of comprehensive income.

#### o Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at balance date without any deduction for estimated future selling costs.

The Fund values its investments in accordance with the accounting policies set out in the financial statements. For the majority of its investments, the Fund relies on information provided by independent pricing services for the valuation of its investments.

The quoted market price used for financial assets held by the Fund is the current bid price; the appropriate quoted market price for financial liabilities is the current asking price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

#### 4 Fair value measurement (continued)

o Fair value in an inactive or unquoted market (level 2)

The fair value of financial instruments that are not traded in an active market (e.g. over-the counter derivatives) is determined using valuation techniques that maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Specific valuation techniques using observable input used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments.
- Foreign currency forwards are valued at the present value of future cash flows based on the forward exchange rates at the balance sheet date.
- Interest rate swaps are valued at the present value of the estimated future cash flows based on observable yield curves.
- Investments in unlisted unit trusts are valued at the mid-price as established by the underlying trust's Responsible Entity.
- Securities which are not listed on a securities exchange or are thinly traded are valued using quotes from brokers.

o Fair value in an inactive or unquoted market (level 3)

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the end of the reporting period. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions. The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds.

The table below sets out the Fund's financial assets and liabilities measured at fair value according to the fair value hierarchy.

<b>30 June 2023</b>	<b>Level 1 \$'000</b>	<b>Level 2 \$'000</b>	<b>Level 3 \$'000</b>	<b>Total \$'000</b>
<b>Financial assets at fair value through profit or loss:</b>				
Interest bearing securities	-	347,164	-	347,164
<b>Total</b>	<b>-</b>	<b>347,164</b>	<b>-</b>	<b>347,164</b>
 30 June 2022	 Level 1 \$'000	 Level 2 \$'000	 Level 3 \$'000	 Total \$'000
<b>Financial assets at fair value through profit or loss:</b>				
Interest bearing securities	-	259,933	-	259,933
<b>Total</b>	<b>-</b>	<b>259,933</b>	<b>-</b>	<b>259,933</b>

The Fund's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

## 4 Fair value measurement (continued)

### (i) Transfers between levels

There were no transfers between levels in the fair value hierarchy in 2023 and 2022.

### (ii) Valuation process

Portfolio reviews are undertaken regularly by management to identify securities that potentially may not be actively traded or have stale security pricing. This process identifies securities which possibly could be regarded as being level 3 securities. Further analysis, should it be required, is undertaken to determine the accounting significance of the identification. For certain security types, in selecting the most appropriate valuation model, management performs back testing and considers actual market transactions. Changes in allocation to or from level 3 are analysed at the end of each reporting period.

The carrying value less impairment provision of other receivables and payables are assumed to approximate their fair values due to their short term nature.

### (iii) Movement in Level 3 instruments

There were no investments classified as Level 3 within the Fund as at 30 June 2023 and 30 June 2022.

## 5 Auditor's remuneration

The following fees were paid or payable for services provided by the auditor of the Fund:

	Year ended	
	30 June 2023	30 June 2022
	\$	\$
<b>(a) Audit and other assurance services</b>		
<i>Audit services and other assurance services</i>		
Audit services - Audit of the financial statements	25,631	23,138
Other assurance services - Audit of the compliance plan	4,255	4,297
Total remuneration for audit and other assurance services	29,886	27,435
<b>(b) Non-audit services</b>		
<i>Taxation services</i>		
Tax compliance services	8,818	8,513
Total remuneration for non-audit services	8,818	8,513

Auditor's remuneration for the Fund is paid by the Responsible Entity and has not been re-charged to the Fund.

## 6 Net assets attributable to unitholders

Movements in the number of units and net assets attributable to unitholders during the year were as follows:

	30 June 2023		30 June 2022	
	No.	\$'000	No.	\$'000
Opening balance	441,183,839	449,875	551,128,779	563,540
Applications	350,474,778	358,546	235,395,015	240,696
Redemptions	(277,584,241)	(284,226)	(345,904,187)	(353,401)
Reinvested distributions	7,472,219	7,643	564,232	576
Distributions paid and payable	-	(14,275)	-	(1,027)
Profit/(loss) for the year	-	15,637	-	(509)
Closing balance	521,546,595	533,200	441,183,839	449,875

As stipulated in the Fund's Constitution, each unit represents a right to an individual share in the Fund and does not extend to a right to the underlying assets in the Fund. There are no separate classes of units and each unit has the same rights attaching to it as all other units of the Fund.

Units are redeemed on demand at the unitholder's option. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within twelve months after the end of the reporting period cannot be reliably determined.

## 6 Net assets attributable to unitholders (continued)

### Capital risk management

Net assets attributable to unitholders can change significantly on a daily basis as the Fund is subject to daily applications and redemptions at the discretion of unitholders.

Applications and redemptions are reviewed relative to the liquidity of the Fund's underlying assets on a daily basis by the Investment Manager. Under the terms of the Fund's Constitution, the Responsible Entity has the discretion to reject an application for units and to defer or adjust a redemption of units if the exercise of such discretion is in the best interests of unitholders.

## 7 Distributions to unitholders

## Independent auditor's report

To the unitholders of Janus Henderson Cash Fund - Institutional

---

### Our opinion

In our opinion:

The accompanying financial report of Janus Henderson Cash Fund - Institutional (the "Fund") is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Fund's financial position as at 30 June 2023 and of its financial performance for the year then ended
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

### What we have audited

The financial report comprises:

- the statement of financial position as at 30 June 2023
- the statement of comprehensive income for the year then ended
- the statement of changes in equity for the year then ended
- the statement of cash flows for the year then ended
- the notes to the financial statements, which include significant accounting policies and other explanatory information
- the directors' declaration.

---

### Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Independence

We are independent of the Fund in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

### **Responsibilities of the directors of the Responsible Entity for the financial report**

The directors of the Responsible Entity are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors of the Responsible Entity determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors of the Responsible Entity are responsible for assessing the ability of the Fund to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Responsible Entity either intend to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

---

### **Auditor's responsibilities for the audit of the financial report**

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: [http://www.auasb.gov.au/auditors\\_responsibilities/ar4.pdf](http://www.auasb.gov.au/auditors_responsibilities/ar4.pdf). This description forms part of our auditor's report.
