INVESTING JUST GOT EASIER

You can now set up an automatic investment plan for as little as \$50/month

How can an automatic investment of \$50 per month benefit you?

It may be the most valuable \$50 you'll spend this month. An automatic investment regularly transfers money from your bank account, directly to your Janus Henderson account on a schedule that works for you. Staying committed to your investment just got easier.

► **It's convenient**

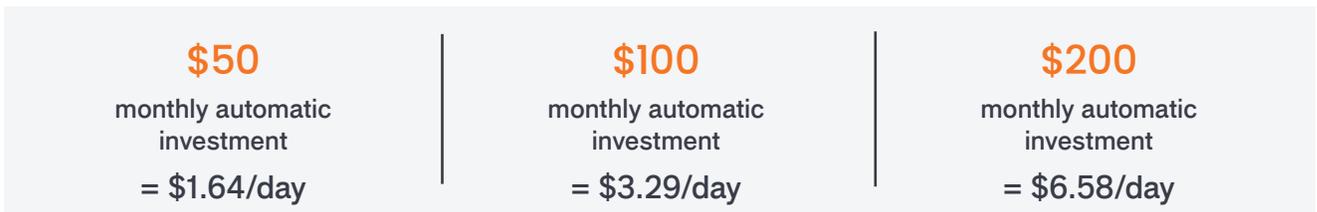

There's no need to mail a check or even go online once the plan is set up.

► **Avoid annual fee**

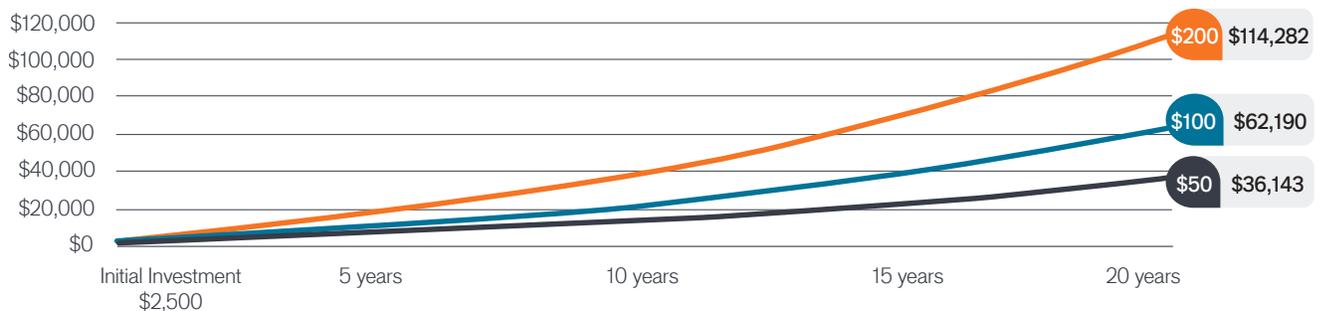

Automatic investing can help build your share balance and potentially avoid annual fees for not maintaining the required minimum balance.

► **Stay on track with your budget**

By ensuring steady contributions, automatic investing helps you stay committed to your long-term plan regardless of emotions created by financial news or short-term market volatility.

The power of compounding

The rates of return are hypothetical and do not represent the returns of any particular investment. Assumes 7% annual growth rate and reinvestment of all income. It does not account for taxes.

Investing involves market risk. Investment return and fund share value will fluctuate and it is possible to lose money by investing. A program of regular investing does not assure a profit or protect against depreciation in a declining market.
