Class of consumers that fall within this target market

The information below summarises the overall class of consumers that fall within the target market for the Sustainable Credit Active ETF (Managed Fund), based on the product key attributes and the objectives, financial situation and needs that this product has been designed to meet.

A consumer (or class of consumer) might intend to hold a particular investment product as part of a diversified portfolio. In these scenarios, the investment product should be assessed against the consumer's attributes for the applicable part of the portfolio, instead of against the consumer's portfolio as a whole.

The Sustainable Credit Active ETF (Managed Fund) is for those who are seeking exposure to an actively managed diversified credit strategy with a focus on 'Sustainable' and/or 'Impact' investments.

Product description and key attributes

The key product attributes of the Sustainable Credit Active ETF (Managed Fund) are:

- The Sustainable Credit Active ETF (Managed Fund) seeks to achieve a total return before fees that exceeds the total return of the Benchmark (Bloomberg AusBond Composite 0-5 Yr Index) by 0.75% p.a. over rolling 3 year periods;
- The fund gains exposure by primarily investing in fixed and floating rate debt securities that are issued by entities considered by the Managers as having robust sustainable practices and/or investments with the potential to enhance outcomes for society's wellbeing and/or protection of the planet;
- Income distributions are generally made on a monthly basis;
- A management fee of 0.50% per annum of the asset value of the fund is charged; and
- As a traded security, investors are able to enter and exit the investment anytime on the Australian Securities Exchange during trading hours.

Objectives, financial situation, and needs

This product has been designed for individuals who:

- Are seeking capital growth through exposure to Australian and global fixed interest securities;
- Are willing to pay the fund's management fee through the value of their invested capital;
- Would be comfortable to invest their capital for a minimum suggested timeframe of at least three years;
- Have a medium risk tolerance and are willing to accept the risks of losing some of their invested capital; and
- Need this product if they are wanting to gain exposure to an actively managed diversified credit strategy that aims to outperform the benchmark.

Consistency between target market and the product

The Sustainable Credit Active ETF (Managed Fund) is likely to be consistent with the likely objectives, financial situation and needs of the class of consumers in the target market. This is based on an analysis of the key terms, features and attributes of the product and a finding that these are consistent with the identified class of consumers. Individuals will need to consider whether this product meets their specific objectives, financial situation and needs. The fund aims to meet its performance target as assessed in relation to its objective and benchmark, and also aims to pay monthly distributions.
