

## KEY INVESTOR INFORMATION

This document provides you with Key Investor Information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## Janus Henderson Horizon Fund

### Japan Opportunities Fund Class H2 USD ISIN: LU0995107140

A sub-fund of Janus Henderson Horizon Fund, a Luxembourg SICAV managed by Janus Henderson Investors Europe S.A.  
Fund Currency: JPY Share Class Currency: USD

## Objective and investment policy

### Objective

The Fund aims to provide capital growth over the long term.  
Performance target: To outperform the Tokyo Stock Price Index by 2% per annum, before the deduction of charges, over any 5 year period.

### Investment policy

The Fund invests at least 80% of its assets in a concentrated portfolio of shares (equities) and equity-related securities of companies, of any size, in any industry, in Japan.

The Fund may also invest in other assets including cash and money market instruments.

The Investment Manager may use derivatives (complex financial instruments) to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed with reference to the Tokyo Stock Price Index, which is broadly representative of the companies in which it may invest, as this forms the basis of the Fund's performance target and the level above which performance fees may be charged (if applicable). The Investment Manager has discretion to choose investments for the Fund with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index.

### Strategy

The Investment Manager seeks to achieve long-term capital appreciation by investing in undervalued, cash-generative and capital-efficient businesses, which

can create value for investors. The focus is on stock selection, which is a result of rigorous, fundamental research and a strict valuation discipline, and incorporates strong risk management. The Fund is a diversified portfolio of companies across a variety of sectors, which the manager believes has the potential to perform well over time.

**Distribution policy** This share class accumulates income which is retained within the price of the share class.

**Recommendation** This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

You can buy, sell or switch shares in the Fund on any dealing day, as defined in the Company's Prospectus.

For an explanation of some of the terms used in this document, please visit the glossary on our website at [www.janushenderson.com](http://www.janushenderson.com).

## Risk and reward profile

The value of an investment and any income from it can go up or down. When you sell your shares they may be worth less than you paid for them.

The rating above is based on the historic volatility of the share class. Historic data may not be a reliable indication of the future risk profile of the Fund. The rating is not guaranteed and may change over time.

The share class appears at 6 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in Net Asset Value in the past five years than those in lower categories. The lowest category does not mean risk free.

Other material risks not captured by the rating:

**Equities** Shares/Units can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result.

**Country or Region** If a Fund has a high exposure to a particular country or geographical region it carries a higher level of risk than a Fund which is more broadly diversified.

**Concentration** This Fund may have a particularly concentrated portfolio relative to its investment universe or other funds in its sector. An adverse event impacting even a small number of holdings could create significant volatility or losses for the Fund.

**Derivatives** The Fund may use derivatives with the aim of reducing risk or managing the portfolio more efficiently. However this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

**Exchange Rates** If the Fund holds assets in currencies other than the base currency of the Fund, or you invest in a share/unit class of a different currency to the Fund (unless hedged, i.e. mitigated by taking an offsetting position in a related security), the value of your investment may be impacted by changes in exchange rates.

**Liquidity** Securities within the Fund could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

**Counterparty Risk and Operational Risk** The Fund could lose money if a counterparty with which the Fund trades becomes unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.

For more information please see the Company's Prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

### One-off charges taken before or after you invest\*

Entry Charge	5.00%
Exit Charge	0.00%**

\* The charges shown are maximum figures. In some cases you may pay less.

\*\* Subject to a charge of up to 1.00% where the Manager suspects excessive trading by an investor (and specifically on subscriptions held for less than 90 days).

### Charges taken from the Fund over a year

Ongoing Charges	1.09%
-----------------	-------

## Past performance

The ongoing charges are based on actual annualised expenses for the period ending 30 June 2023. Ongoing charges may vary from year to year.

The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another Fund.

### Charges taken from the Fund under certain specific conditions

Performance fee	10.00%*
-----------------	---------

\*10% of any returns that, subject to a High Water Mark, the Fund achieves above the Tokyo Stock Price Index. The actual amount charged in the Fund's last financial period ending 30 June 2023 amounted to 0.00%.

Performance fees may be charged before the Fund's outperformance target is reached.

For more information about Charges please see the Company's Prospectus.

The past performance is calculated in USD.

The Fund was launched in July 1985 and the share class was launched in March 2014.

Past performance does not predict future returns.

The past performance takes into account all charges except one-off charges. Please note that while the Fund aims to achieve its performance target before the deduction of charges, the chart and table illustrate the actual performance of the share class after the deduction of charges.

The Fund does not aim to track the performance of the benchmark.

## Practical information

**Depository:** BNP Paribas, Luxembourg Branch

**To obtain more information:** This Key Investor Information Document may not contain all the information you need.

For the last published price of shares in the Fund or any additional information on the Fund, or to obtain the Company's prospectus or the annual/semi-annual report, please visit [www.janushenderson.com](http://www.janushenderson.com).
