Objective and investment policy

The Fund aims to provide a return, from a combination of capital growth and income over the long term (5 years or more).

The Fund invests at least 80% of its assets in shares (also known as equities) of smaller companies, in any industry, in the UK and Ireland.

Companies will be incorporated, headquartered or deriving significant revenue from, the UK or Ireland.

The Fund is actively managed with reference to the Numis Sub-£1bn ex Investment Companies Index, which is broadly representative of the companies in which it may invest, as this can provide a useful comparator for assessing the Fund's performance. The investment manager has discretion to choose investments for the Fund with weightings different to the index or not in the index. As an additional means of assessing the performance of the Fund, the IA UK Smaller Companies sector average, which is based on a peer group of broadly similar funds, may also provide a useful comparator.

Additional information

Please be advised that with effect from 1 November 2018, the Janus Henderson UK & Irish Smaller Companies Fund has been managed in-house by Neil Hermon. Prior to this change the Fund had been managed externally by Lombard Odier. On 3 March 2014 the Fund changed its benchmark from FTSE Small Cap ex Investment Trust Index to the Numis + AIM (excluding investment companies and companies with a market capitalisation of more than £1bn). The benchmark shown is the composite of the two.

Performance for the share class is calculated at 12pm and performance of the index is calculated as at close of business. Note that any differences among portfolio securities currencies, share class currencies, and your home currency will expose you to currency risk.

What are the risks specific to this fund?

- The Fund could lose money if a counterparty with which it trades becomes unwilling or unable to meet its obligations to the Fund.
- Shares can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result.
- Shares of small and mid-size companies can be more volatile than shares of larger companies, and at times it may be difficult to value or to sell shares at desired times and prices, increasing the risk of losses.
- If a Fund has a high exposure to a particular country or geographical region it carries a higher level of risk than a Fund which is more broadly diversified.
- The Fund may use derivatives with the aim of reducing risk or managing the portfolio more efficiently. However this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

General risks

- Past performance is not a guide to future performance.
- The value of an investment and the income from it can fall as well as rise and you may not get back the amount originally invested.
- Tax assumptions and reliefs depend upon an investor's particular circumstances and may be subject to change.

Important information

Fund size at 12pm on last business day of month. FTSE Small Cap ex Investment Trust Index redistributed and FTSE® used under licence from FTSE. FTSE and its licensors Financial Times Limited and London Stock Exchange plc own all rights therein and disclaim liability for errors/omissions. * Yields are shown net except for bond funds which are shown gross. The Historical Yield reflects distributions declared over the past 12 months as a percentage of the mid-market share price, as at the date shown. It does not include any preliminary charge and investors may be subject to tax on their distributions. * Index: The Numis Sub-£1bn ex Investment Companies Index is a measure of the combined performance of smaller companies (the bottom 10%) listed on the London Stock Exchange excluding investment companies and companies with a market capitalisation greater than £1bn. It provides a useful comparison against which the Fund's performance can be assessed over time. ** Peer group benchmark: The Investment Association (IA) groups funds with similar geographic and/or investment remit into sectors. The Fund's ranking within the sector (as calculated by a number of data providers) can be a useful performance comparison against other funds with similar aims. Please note: due to rounding the figures in the holdings breakdowns may not add up to 100%.
