Janus Henderson Fund

Continental European Fund Class G1 HGBP ISIN: LU1196326760

A sub-fund of Janus Henderson Fund, a Luxembourg SICAV managed by Janus Henderson Investors Europe S.A.  
Fund Currency: EUR    Share Class Currency: GBP

Objective and investment policy

Objective

The Fund aims to provide a return, from a combination of capital growth and income over the long term (5 years or more).

Investment policy

The Fund invests at least two-thirds of its assets in a portfolio of shares (equities) and equity-related securities of companies, of any size, in any industry, in Continental Europe. Companies will have their registered office in or do most of their business (directly or through subsidiaries) in this region.

The Fund may also invest in other assets including cash and money market instruments.

The Investment Manager may use derivatives (complex financial instruments) to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed with reference to the MSCI Europe (ex UK) Index, which is broadly representative of the companies in which it may invest, as this can provide a useful comparator for assessing the Fund's performance. The Investment Manager has discretion to choose investments for the Fund with weightings different to the index or not in the index. Depending on prevailing market conditions the Fund's portfolio may shift between 'high conviction' (whereby the manager will take significant risk relative to the index) and a more cautious stance. This means the performance of the Fund may at times differ significantly from the index, while at other times it may be more closely aligned.

Strategy

The Investment Manager looks to anticipate catalysts for change in companies and industries based on fundamental research and thought leadership, in order

to construct a portfolio of large companies complemented by mid-size company opportunities with the potential to enhance the Fund's overall returns. Smaller companies are not normally a significant focus of the portfolio.

**Other Information** The Investment Manager will seek to promote environmental, social and/or governance (ESG) principles in managing the Fund, which may include the exclusion of issuers that the Investment Manager considers could contribute to significant ESG harm, as further described in the prospectus.

**Distribution policy** This share class distributes income after the deduction of charges.

**Distribution frequency** Annual.

**Recommendation** This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

You can buy, sell or switch shares in the Fund on any dealing day, as defined in the Company's Prospectus.

Risk and reward profile

The value of an investment and any income from it can go up or down. When you sell your shares they may be worth less than you paid for them.

The rating above is based on the historic volatility of the share class. Historic data may not be a reliable indication of the future risk profile of the Fund. The rating is not guaranteed and may change over time.

The share class appears at 6 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in Net Asset Value in the past five years than those in lower categories. The lowest category does not mean risk free.

Other material risks not captured by the rating:

**Equities** Shares/Units can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result.

**Smaller Companies** Shares of small and mid-size companies can be more volatile than shares of larger companies, and at times it may be difficult to value or to sell shares at desired times and prices, increasing the risk of losses.

**Country or Region** If a Fund has a high exposure to a particular country or geographical region it carries a higher level of risk than a Fund which is more broadly diversified.

**Concentration** This Fund may have a particularly concentrated portfolio relative to its investment universe or other funds in its sector. An adverse event impacting even a small number of holdings could create significant volatility or losses for the Fund.

**Derivatives** The Fund may use derivatives with the aim of reducing risk or managing the portfolio more efficiently. However this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

**Exchange Rates** If the Fund holds assets in currencies other than the base currency of the Fund, or you invest in a share/unit class of a different currency to the Fund (unless hedged, i.e. mitigated by taking an offsetting position in a related security), the value of your investment may be impacted by changes in exchange rates.

**Currency Hedging** When the Fund, or a share/unit class, seeks to mitigate exchange rate movements of a currency relative to the base currency (hedge), the hedging strategy itself may positively or negatively impact the value of the Fund due to differences in short-term interest rates between the currencies.

**Liquidity** Securities within the Fund could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

**Counterparty Risk and Operational Risk** The Fund could lose money if a counterparty with which the Fund trades becomes unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.

For more information please see the Company's Prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

### One-off charges taken before or after you invest\*

Entry Charge	0.00%
Exit Charge	0.00%

\* The charges shown are maximum figures. In some cases you may pay less.

## Past performance

### Charges taken from the Fund over a year

Ongoing Charges	0.72%
-----------------	-------

The ongoing charges are based on actual annualised expenses for the period ending 30 September 2023. Ongoing charges may vary from year to year. The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another Fund.

For more information about Charges please see the Company's Prospectus.

The past performance is calculated in GBP.

The Fund was launched in September 2000 and the share class was launched in March 2015.

Past performance does not predict future returns.

The past performance takes into account all charges except one-off charges.

The share class currency is different to the base currency of the Fund and its chosen benchmark. Past performance for this share class includes currency hedging which is not reflected in the performance of the benchmark.

The Fund does not aim to track the performance of the benchmark.
