## Fees & charges (%)

Annual management charge (AMC)	1.20
Performance fee description	10% of any returns that, subject to a high water mark, the share class achieves above the index
Ongoing charge (OCF)	1.86

All ongoing charges stated are as per latest published report and accounts. Fund charges will impact the value of your investment. In particular, the ongoing charges applicable to each fund will dilute investment performance, particularly over time. For further explanation of charges please visit our Fund Charges page at [www.janushenderson.com](http://www.janushenderson.com). Performance fees may be charged before the Fund's outperformance target is reached. Performance fees are charged separately as a way of rewarding the investment manager for superior returns or for outperforming specified targets. A Performance Fee is accrued where the NAV outperforms the relevant Hurdle NAV (subject to a High Water Mark). For further explanation of the performance fee calculation methodology please see the relevant prospectus, available at <http://www.janushenderson.com>. Under some circumstances initial charges may apply. Please refer to the Prospectus for more details.

## Additional fund information

Tax assumptions and reliefs depend upon an investor's particular circumstances and may be subject to change. The performance data does not take account of the initial charge and Janus Henderson does not currently levy a redemption charge. Please note: due to rounding the figures in the holdings breakdowns may not add up to 100%. Investors should refer to the prospectus for full details on performance fee where a performance fee is applicable. This is a Luxembourg SICAV Fund, regulated by the Commission de Surveillance du Secteur Financier (CSSF). Note that any differences among portfolio securities currencies, share class currencies and costs to be paid or represented in currencies other than your home currency will expose you to currency risk. Costs and returns may increase or decrease as a result of currency and exchange rate fluctuations. To obtain our prospectus and any additional information please visit our website on: [www.janushenderson.com](http://www.janushenderson.com). Investment into the fund will acquire units/shares of the fund itself and not the underlying assets owned by the fund.

### Investment policy

The Fund invests at least 75% of its assets in a concentrated portfolio of shares (equities) and equity-related securities of real estate investment trusts (REITs) and companies, which invest in property, in the EEA or the UK if not part of the EEA. Securities will derive the main part of their revenue from owning, developing and managing real estate. The Fund may also invest in other assets including cash and money market instruments. The investment manager may use derivatives (complex financial instruments) to reduce risk or to manage the Fund more efficiently. The Fund is actively managed with reference to the FTSE EPRA Nareit Developed Europe Capped Index, which is broadly representative of the securities in which it may invest, as this forms the basis of the Fund's performance target and the level above which performance fees may be charged (if applicable). The investment manager has discretion to choose investments for the Fund with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index.

### Investment strategy

The investment manager seeks to identify European listed property companies and real estate investment trusts (REITs) that can deliver the highest total return over the long-term. The investment process follows a high conviction, 'bottom-up' (fundamental company-level) research approach aiming to identify the best risk-adjusted value from across the capitalisation spectrum.

### Fund specific risks

When the Fund, or a hedged share/unit class, seeks to mitigate exchange rate movements of a currency relative to the base currency, the hedging strategy itself may create a positive or negative impact to the value of the Fund due to differences in short-term interest rates between the currencies. The Fund could lose money if a counterparty with which the Fund trades becomes unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider. Shares/Units can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result. If a Fund has a high exposure to a particular country or geographical region it carries a higher level of risk than a Fund which is more broadly diversified. The Fund is focused towards particular industries or investment themes and may be heavily impacted by factors such as changes in government regulation, increased price competition, technological advancements and other adverse events. This Fund may have a particularly concentrated portfolio relative to its investment universe or other funds in its sector. An adverse event impacting even a small number of holdings could create significant volatility or losses for the Fund. The Fund invests in real estate investment trusts (REITs) and other companies or funds engaged in property investment, which involve risks above those associated with investing directly in property. In particular, REITs may be subject to less strict regulation than the Fund itself and may experience greater volatility than their underlying assets. The Fund may use derivatives with the aim of reducing risk or managing the portfolio more efficiently. However this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations. If the Fund holds assets in currencies other than the base currency of the Fund or you invest in a share/unit class of a different currency to the Fund (unless 'hedged'), the value of your investment may be impacted by changes in exchange rates. Securities within the Fund could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses. Some or all of the ongoing charges may be taken from capital, which may erode capital or reduce potential for capital growth.

## Glossary

### Beta

Beta measures how a fund or security moves in relationship to the overall market. A market has a beta of 1. If the fund/security's beta is more than 1, it moves more than the market, while a beta lower than 1 means it moves to a lesser extent than the market. A negative beta could mean the fund/security moves in the opposite direction to the market.

### Historic Yield

The Historic Yield reflects distributions declared over the past 12 months as a percentage of the mid-market share price, as at the date shown.

### Real estate investment trust (REITs)

An investment vehicle that invests in real estate, through direct ownership of property assets, property shares or mortgages. As they are listed on a stock exchange, REITs are usually highly liquid and trade like a normal share.

### Sharpe ratio

This measures a portfolio's risk-adjusted performance. A high Sharpe ratio indicates a better risk-adjusted return. The ratio is designed to measure how far a portfolio's return can be attributed to fund manager skill as opposed to excessive risk taking.

### Standard deviation

A statistic that measures the variation or dispersion of a set of values/data. A low standard deviation shows the values tend to be close to the mean while a high standard deviation indicates the values are more spread out. In terms of valuing investments, standard deviation can provide a gauge of the historical volatility of an investment.

### Weighted average market cap

The average market capitalisation of a holding, weighted by the size of that position in a portfolio or index.

**Janus Henderson**  
— INVESTORS —

Any investment application will be made solely on the basis of the information contained in the Fund's prospectus (including all relevant covering documents), which will contain investment restrictions. This is a marketing communication and is intended as a summary only and potential investors must refer to the prospectus of the UCITS and to the KIID before investing. Information is provided on the Fund on the strict understanding that it is to - or for clients resident outside the USA. A copy of the Fund's prospectus and key investor information document can be obtained from Janus Henderson Investors UK Limited in its capacity as Investment Manager and Distributor. Nothing in this communication is intended to or should be construed as advice. This communication does not constitute an offer or a recommendation to sell or purchase any investment. It does not form part of any contract for the sale or purchase of any investment. The performance data does not take into account the commissions and costs incurred on the issue and redemption of units. Deductions for charges and expenses are

not made uniformly throughout the life of the investment but may be loaded disproportionately at subscription. If you withdraw from an investment up to 90 calendar days after subscribing you may be charged a Trading Fee as set out in the Fund's prospectus. This may impact the amount of money which you will receive and you may not get back the amount invested. The value of an investment and the income from it can fall as well as rise significantly. Some Sub-Funds of the Fund can be subject to increased volatility due to the composition of their respective portfolios. Tax assumptions and reliefs depend upon an investor's particular circumstances and may change if those circumstances or the law change. If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially. The Fund is a recognised collective investment scheme for the purpose of promotion into the United Kingdom. Potential investors in the United Kingdom are advised that all, or most, of the protections afforded by the United Kingdom regulatory system will not apply to an investment in the Fund and that compensation will not be available under the United Kingdom Financial Services Compensation Scheme. The Fund is a foreign collective investment scheme registered in the Netherlands with the Authority for the Financial Markets and in Spain with the CNMV with the number 353. A list of distributors is available at [www.cnmv.es](http://www.cnmv.es) The Custodian in Spain is BNP PARIBAS SECURITIES SERVICES S.C.A. For sustainability related aspects please access [Janushenderson.com](http://Janushenderson.com). We may record telephone calls for our mutual protection, to improve customer service and for regulatory record keeping purposes.
