

KEY INVESTOR INFORMATION

This document provides you with Key Investor Information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Janus Henderson

Fixed Interest Monthly Income Fund Class Acc ISIN: GB00B7BX6S68

A unit trust, managed by Janus Henderson Fund Management UK Limited.
Fund Currency: GBP Unit Class Currency: GBP

Objective and investment policy

Objective

The Fund aims to provide a high income.
Performance target: To outperform the IA Sterling Strategic Bond sector average, after the deduction of charges, over any 5 year period.

Investment policy

The Fund invests at least 80% of its assets in a global portfolio of bonds of any quality, including high yield (non-investment grade) bonds, issued by governments, companies or any other type of issuer. Where investments are made in assets in currencies other than Sterling, the Fund will seek to hedge at least 80% of those assets back to Sterling to largely remove the risk of currency exchange rate movements.
The Fund may also hold other assets including preference shares, cash and money market instruments. In certain market conditions, the Fund may invest more than 35% of its assets in government bonds issued by any one body. The Investment Adviser may use derivatives (complex financial instruments), including total return swaps, with the aim of making investment gains in line with the Fund's objective, to reduce risk or to manage the Fund more efficiently. The Fund is actively managed with reference to the IA Sterling Strategic Bond sector average, which is based on a peer group of broadly similar funds, as this forms the basis of the Fund's performance target. The Investment Adviser has complete freedom to choose individual investments for the Fund and to vary allocations between different types of bonds.

Risk and reward profile

The value of an investment and any income from it can go up or down. When you sell your units they may be worth less than you paid for them.
The rating above is based on the historic volatility of the unit class. Historic data may not be a reliable indication of the future risk profile of the Fund. The rating is not guaranteed and may change over time.
The unit class appears at 4 out of 7. Units in higher categories have shown greater and/or more frequent variations in Net Asset Value in the past five years than those in lower categories. The lowest category does not mean risk free.
Other material risks not captured by the rating:
Credit Risk An issuer of a bond (or money market instrument) may become unable or unwilling to pay interest or repay capital to the Fund. If this happens or the market perceives this may happen, the value of the bond will fall.
Interest Rates When interest rates rise (or fall), the prices of different securities will be affected differently. In particular, bond values generally fall when interest rates rise (or are expected to rise). This risk is typically greater the longer the maturity of a bond investment.
High Yield Bonds The Fund invests in high yield (non-investment grade) bonds and while these generally offer higher rates of interest than investment grade bonds, they are more speculative and more sensitive to adverse changes in market conditions.

Strategy

The Investment Adviser aims to build a diverse portfolio of high yielding fixed interest securities to provide a reliable monthly income over the long term with an acceptable level of risk. With no formal index benchmark to follow, but with a strong focus on income generation, the portfolio managers actively respond to economic and market conditions and alter the portfolio to benefit from the best available sources of income in the developed fixed income markets through careful macroeconomic research and company analysis.
Distribution policy The Fund offers both accumulation units (units in which net income is retained within the price) and income units (units in which net income is paid out to investors).
Recommendation This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.
The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.
You can buy, sell or switch units in the Fund on any dealing day and according to certain restrictions, both defined in detail in the Fund's Prospectus.

For an explanation of some of the terms used in this document, please visit the glossary on our website at www.janushenderson.com.

Contingent Convertible Bonds (CoCos) CoCos can fall sharply in value if the financial strength of an issuer weakens and a predetermined trigger event causes the bonds to be converted into shares/units of the issuer or to be partly or wholly written off.
Derivatives and Leverage The Fund may use derivatives to help achieve its investment objective. This can result in leverage (higher levels of debt), which can magnify an investment outcome. Gains or losses to the Fund may therefore be greater than the cost of the derivative. Derivatives also introduce other risks, in particular, that a derivative counterparty may not meet its contractual obligations.
Currency Hedging When the Fund, or a share/unit class, seeks to mitigate exchange rate movements of a currency relative to the base currency (hedge), the hedging strategy itself may positively or negatively impact the value of the Fund due to differences in short-term interest rates between the currencies.
Liquidity Securities within the Fund could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.
Charges to Capital Some or all of the ongoing charges may be taken from capital, which may erode capital or reduce potential for capital growth.
Counterparty Risk and Operational Risk The Fund could lose money if a counterparty with which the Fund trades becomes unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.
For more information please see the Fund's Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

One-off charges taken before or after you invest*

Entry Charge	4.00%
Exit Charge	0.00%**

* The charges shown are maximum figures. In some cases you may pay less.

** Subject to a charge of up to 3.00% where the Manager suspects excessive trading by an investor (and specifically on subscriptions held for less than 90 days).

Charges taken from the Fund over a year

Ongoing Charges	1.33%
-----------------	-------

The ongoing charge figure is estimated because of the recent changes made to this unit class.

The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another Fund.

For more information about Charges please see the Fund's Prospectus.

Past performance

The past performance is calculated in GBP.

The Fund was launched in April 1979 and the units were launched in May 2012.

Past performance does not predict future returns.

The past performance takes into account all charges except one-off charges.

Practical information

Trustee: NatWest Trustee and Depositary Services Limited.

To obtain more information: This Key Investor Information Document may not contain all the information you need.

For the last published price of units in the Fund or any additional information on the Fund, or to obtain the Fund's prospectus or the annual/semi-annual report, please visit www.janushenderson.com.
